

Questions and Answers #7

1. See RFI response below. Their answer contradicts itself, they say they don't want a proprietary panel but the three options they have are all proprietary. Bosch and DMP are dealer only proprietary panels.

22. Sheet No. E-104 lays out typical door electronic security. Is this an open specification not manufacturer specific?

USFWS Response For the intrusion detection system, the construction drawings on E-104 reference Appendix 1 INTRUSION DETECTION SYSTEM (IDS) of the Specifications.

Install Wireless receivers and keypads. System Panels Authorized include:

A. Bosch model numbers 8512G or 9512G series or

B. DMP model XR150 Note: Proprietary panels will not be accepted due to the inability to provide adequate support.

USFWS RESPONSE: We USFWS needs either *A. Bosch model numbers 8512G or 9512G series or B. DMP model XR150*

2. Is there any window design or general parameters they can follow to quote the windows?

USFWS RESPONSE: We do not have other parameters other than what is in the drawings, specifications, or other RFI answers.
