CLARIFICATION REGARDING WORK NOT TO BE SELF-PERFORMED BY GENERAL CONTRACTOR

This office has received several plan requests for the subject project in which the submitting party indicated their ability to “self-perform” various aspects of the work. While this office understands that there are various incidental tasks that can be self-performed by the G.C. personnel, the majority of the work required in this project should be performed by companies who are daily engaged in providing the work of their specific discipline/trade and are experienced and/or licensed to do so. The work of the following disciplines/trades is expected and required to be performed by such companies and SHALL NOT be self-performed by the General Contractor personnel:

- SITE PREPARATION/GRADING and SITE IMPROVEMENTS
- PRESSURE and NON-PRESSURE PLUMBING (SITE and BUILDING)
- FIRE PROTECTION PLUMBING
- HVAC/MECHANICAL SYSTEMS
- CONCRETE FINISHING of EXPOSED CONCRETE SURFACES
- LIGHT-GAUGE FRAMING (STRUCTURAL and NON-STRUCTURAL)
- METAL TRUSS FRAMING and INSTALLATION
- ROOFING (ROOF DECK and ROOFING SYSTEMS)
- ALL MASONRY WORK (C.M.U., FACE BRICK and CAST STONE)
- E.I.F.S. (EXTERIOR INSULATION and FINISH SYSTEMS)
- FINISH FLOORING (RESILIENT FLOORING and HARD TILE FLOORING and WALL SYSTEMS)
- PRE-FINISHED SHEET METAL FLASHING and TRIM
- DRYWALL SYSTEMS and LAY-IN CEILINGS
- ALUMINUM STOREFRONT SYSTEMS (WINDOWS and DOORS)
- ELECTRICAL (POWER, LIGHTING and STRUCTURED CABLING SYSTEMS)

For purposes of this project, the above-listed disciplines/trades will be considered “Major Sub-Contractors”. The first and second “Low Bidders” on this project will be required to submit a list of their proposed “Major Sub-Contractors” within forty-eight (48) hours of receipt of bids. It is the opinion of this office that forty-eight hours is sufficient time to review and provide proper discernment on the quotes received from these disciplines/trades.
