FF&E NARRATIVE

MWD KENNEL HUNTER ARMY AIRFIELD
HUNTER ARMY AIRFIELD, GEORGIA

MWD KENNEL HUNTER ARMY AIRFIELD

Mission Statement:

This project will include kennel administration offices, veterinary exam and surgical suite, TA-50 locker area, latrines with showers, tack room, food preparation and storage areas, indoor and outdoor kennels, and building utility support areas. Fire detection and suppression, energy management control, unclassified and classified communications networks, intrusion detection, surveillance, and access control systems will be provided. Supporting facilities include all related site-work and utilities (electrical, water, gas, sanitary sewer, and information systems distribution), lighting, parking, curb and gutter, sidewalks, storm drainage, landscaping, antiterrorism/force protection measures (AT/FP), obedience course with apparatuses, exercise and break areas, mobility equipment storage, and other site improvements. Special construction includes sustainable construction features complying with Leadership in Energy and Environmental Design LEED "Silver".

Applicable Design Manuals, Codes, Criteria:

Standards:

- UFC 3-120-10 Interior Design
- UFGS Specifications
- ABA Accessibility Standard for Department of Defense Facilities, 2015
- Whole Building Design Guide, National Institute of Building Sciences
- ANSI/BIFMA Safety and Performance Standards for Furniture

Guidelines:

- DD1391

Design Intention:

This facility requires furnishings that respond to the physical demands of the constant utilization by different users in the facility. Furnishings must be durable, easy to maintain, have limited parts and pieces to manage and have universal modularity to respond to unknown future changes. The furnishings must integrate seamlessly with the building electrical and data systems with easily accessible wire management capability. Equally important to the function of the furnishings, ergonomic support and features will be incorporated to support a healthy work environment to the users. The furnishing size and adjustability features will accommodate a minimum of 95% of the facility population size. Other healthy / ergonomic furniture features include:

- Integrated task light provide light in task areas to help avoid eye strain.
- Seating for all users will be specified with easily adjustable mechanism for height, arms, and back, breathable fabric for comfort and seat pan front edges that will not cut off circulation while sitting.
- Selecting furnishings from manufacturers that utilize sustainable manufacturing processes and produce products that are GREENGUARD or Scientific Certification Systems (SCS) Certified, with recycled content materials. When possible, furnishings will be provided that achieve the "Cradle to Cradle" environmental status to reduce future landfill use.

All furnishings will be analyzed against these criteria in combination with a cost analysis to determine the "Best Value".

SECTION 01
NARRATIVE

FF&E Interior Furnishings Styles and Types

The facility is to be transitional in style with clean lines and simple forms that function efficiently for the users and are cohesive with the interior finishes of the facilities. Furnishings to be included in the FF&E package are to be as follows:

Kennel Master and Trainer office will include:

- L-shaped desk with metal construction and laminate worksurface
- Overhead closed storage units
- Integral task light below overhead with occupancy sensor
- Fabric tack panel
- File Storage
- Ergonomic mesh task chair with lumbar support
- Two guest chairs with metal frames with upholstered seat and back
- Magnetic marker board

Multi-Purpose handlers space will include:

- 48"W x 24" D workstations
- File storage
- Integral task light with occupancy sensor
- Fabric tack panel interior side of work surface
- Slat wall on spine wall for phone trays and paper management
- CPU holders
- Ergonomic mesh task chair with lumbar support
- Multi-function meeting tables with laminate tops, locking casters and flip-top surface and nesting capability and for maximum flexibility
- Break Space appliances: Refrigerator/Freezer, coffee machine, microwave.
- Magnetic market boards

Tack Room will include:

- Metal storage shelving for storage
- Washer and Dryer
- Refrigerator/Freezers
- Dog Bath
- Metal storage cabinet
- Clothes Hook strips

Food Storage will include:

- Metal storage shelving for storage
- Ice machine
- Refrigerator/Freezers
- Microwave
- Food prep table
- Kitchen grade shelving

Veterinary Treatment will include:

- Lab Stool
- Undercounter refrigerator
- Magnetic market board

SECTION 01
NARRATIVE

Mothers Room will include:

- Soft Seating Side Chair with tablet arm
- Undercounter refrigerator

Accessories throughout the building include:

- Trash receptacles
- Recycling receptacles
- Clocks

Government Furnished, Government Installed (GFGI) Equipment

Equipment is not included in MILCON or in the FF&E package. The following items will be procured by the government. They are indicated by halftone and dashed items with an "EQ" item code in the drawings in order to coordinate space and required building infrastructure:

- Veterinary Treatment and Surgery Laboratory Equipment
- Safes
- Multi-function machines
- Shredders
- Flat panel displays
